

Water Management Services

Price-certain • Safe • Reliable • Efficient • Cost-effective

Fluence's Water Management Services can deliver the water you need with no up-front infrastructure investment or maintenance costs. We'll finance, construct, and operate the water or wastewater treatment plant, so you can focus on what you do best.

Our Services

Desalination

Near a sea, lake, or well? We can treat almost any water source to produce clean water for drinking and more.

Wastewater Treatment for Reuse

Paying twice, once for fresh water and again for wastewater discharge? Instead, reduce water costs through efficient reuse

Water 360

End-to-end solution featuring desalination and wastewater treatment to make the most of your water resources.

No upfront investment needed

Pay only for water, we finance the project

Fast, reliable construction and start up

Fluence is making a long-term investment, quality guaranteed

Pay less for your water

Dramatic reduction in water cycle costs, by up to 30%

Water Management Services

Best-in-Class Equipment

In-house solutions designed for sustainable off-the-grid water supply, wastewater treatment, and reuse

- Top quality equipment
- Effective treatment
- Small footprint
- Reliable
- Sustainable
- Cost-efficient
- Odorless
- Quiet
- Scalable
- Remote management
- Option to customize container design

NIROBOX™ desalination plant
The industry's smallest overall footprint

Aspiral™ MABR-based wastewater treatment
Effluent meets stringent water reuse standards

Sit Back and Relax, You Can Rely On Us

We are a global team of engineers, scientists, and professionals passionate about changing the world of water through innovative, sustainable technologies. With hundreds of projects around the world, we have the expertise to build and manage your water infrastructure, so you can enjoy the benefits of clean water and water reuse, worry free.

A Field-Proven Solution

CASE STUDY

- Customer: Rav Bahamas Limited
- Location: Bimini, Caribbean
- Capacity: 3,000 m³/day (0.79 MGD)

Fluence replaced an old SWRO plant at the Resorts World with three NIROBOX™-XL packaged desalination units.

The plant treats seawater from beach wells to provide potable water for drinking, irrigation, and operations at the resort.

The plant is automated, remotely monitored, cost-effective, and energy-efficient.

About Fluence

Fluence is a leader in the decentralized water, wastewater and reuse treatment markets, setting the industry pace with its Smart Products Solutions, including Aspiral™, NIROBOX™ and SUBRE. With

established operations in North America, South America, the Middle East, Europe and China, Fluence has experience operating in over 70 countries and enables businesses and communities worldwide to maximize
